DIVISION OF MUNICIPAL ACCOUNTING

STATE TAX COMMISSION

Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

February 16, 1967

Board of Selectmen

Allenstown, New Hampshire

Gentlemen:

Submitted herewith is the report of the annual examination and audit of the accounts of the Town of Allenstown for the fiscal year ended December 31, 1966, which was made by this Division in accordance with the vote of the Town. Exhibits as hereafter listed are included as part of the report.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Municipal Court, Trustees of Trust Funds and Library.

FINANCIAL STATEMENTS

Comparative Balance Sheets - December 31, 1965 - December 31, 1966: (Exhibit A-1)

Comparative Balance Sheets as of December 31, 1965 and December 31, 1966, are presented in Exhibit A-1. As indicated therein, the Net Debt decreased by \$6,710.02 in 1966.

Analysis of Change in Financial Condition: (Exhibit A-2)

An analysis of the change in financial condition of the Town during the year is made in Exhibit A-2, with the factors which caused the change indicated therein. These were as follows:

Decrease in Net Debt

Net Budget Surplus	\$2,253.92	
Long Term Notes Paid	<u>4,500.00</u>	\$6,753.92

	<u>Increase in Net Debt</u>	\$11,362.16
--	-----------------------------	-------------

Tax Liens Transferred to		
Tax Deeds	\$ 23.40	
Decrease of Cash in Hands		
of Town Clerk	19.50	
Increase in Accounts Owed		
by Town	<u>1.00</u>	
		<u>43.90</u>
<u>Net Decrease</u>		<u>\$6,710.02</u>

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits A-3 & A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1966, are presented in Exhibits A-3 & A-4. As indicated by the budget summary (Exhibit A-4), a revenue surplus of \$6,151.36, less a net overdraft of appropriations of \$3,897.44 resulted in a net budget surplus of \$2,253.92.

Summary Statement of Receipts and Expenditures: (Exhibit B-1)

A summary statement of receipts and expenditures for the fiscal year ended December 31, 1966, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1966, is indicated in Exhibit B-2.

Municipal Court: (Exhibit E)

A Statement of the accounts of the Municipal Court for the fiscal year is included in Exhibit E.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

GENERAL COMMENTS

Current (Deficit) - Surplus:

The current financial condition of the Town changed from a current deficit (excess of current liabilities over total assets) of \$1,728.27, to a current surplus (excess of total assets over current liabilities) of \$481.75 in 1966, as shown herewith:

	<u>December 31, 1965</u>	<u>December 31, 1966</u>
<u>Total Assets</u>	\$62,073.85	\$69,512.81
<u>Current Liabilities</u>	63,802.12	69,031.06
Current (Deficit) - Surplus	(\$ 1,728.27)	\$ 481.75

Surety Bond:

The surety bond of the Town Clerk should be increased from \$3,000.00 to \$5,000.00.

Overdraft of Appropriations and Application of Municipal Budget Law:

It is noted that there was a net overdraft of appropriations in the amount of \$3,897.44, - in other words, total expenditures exceeded total appropriations by this amount as indicated herewith:

Overdrafts of Appropriations	\$7,710.30
Unexpended Balances of Appropriations	<u>3,812.86</u>
Net Overdraft of Appropriations	<u>\$3,897.44</u>

Included in the net overdraft was an overdraft of \$1,755.17 in the "overlay" assessment. Because the amount of overlay is fixed by the Board of Selectmen, rather than appropriated by the town meeting, the net overdraft of appropriations should be reduced by the overdraft in the "overlay" assessment, leaving a net overdraft of budgetary appropriations of \$2,142.27, as shown herewith:

Net Overdraft of Appropriations	\$3,897.44
Less: Overdraft in "Overlay" Account	<u>1,755.17</u>
Net Overdraft of Budgetary Appropriations	<u>\$2,142.27</u>

In cases of this sort the provisions of the Municipal Budget Law (R.S.A. 32:10) require that the Board of Selectmen, with the approval of the Budget Committee, petition the State Tax Commission for a certificate of emergency which would authorize the expenditures made in excess of budgetary appropriations. Our records do not indicate that this procedure was followed.

Conclusion:

The provisions of Chapter 184, of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town.

CIVIL DEFENSE

CIVIL DEFENSE REPORT ALLENSTOWN - 1966

With our men giving up their lives in Vietnam for freedom, we find ourselves wondering if the world will ever be at peace. The only comfort we have is that should a nuclear attack occur, we can depend on our Civil Defense Fall-out Shelter. Our community has one of the largest shelters in New Hampshire. Through the generosity of Mr. Moody Dole, we have, at our disposal the basement and first floor of the Dole-Suncook Mill, located on Canal Street, Allenstown, N. H.

This shelter has been equipped with innumerable items for our survival and comfort should the need arise. These items have been supplied by the Department of Defense, Office of Civil Defense. In the near future, blankets and cots will also be stocked. In 1966, the Corps of Engineers updated the shelter, and space to accommodate 4,900 persons was provided.

Communication with Area 6 Headquarters has been established. Radio communication is maintained every Tuesday night from 7 to 8 p.m., where messages are received and transmitted with other Civil Defense units in the area. Approximately every three months, an "Early Warning" exercise is conducted. This warning originates at the "North American Air Defense Headquarters" (NORAD), at

Colorado Springs, Colorado. This message is received through our Red Phone system.

In the near future, a Disc will be added to the board on the fire department alarm system. This disc will ring 14 blows, advising the community of an incoming danger.

Aside from the shelter, Civil Defense, plays an important role in the community. We work very closely with our Fire Department, using the same base station. A scuba team is available to the town to better protect the community.

This past year, a fire trailer and a five ton truck, have been purchased through the Office of Civil Defense. With the help of the fire department, the truck, has been equipped with a 1,600 gallon water tank to help during the drought season, when water shortage is a problem. These two items add 2,200 gallons of water to our fire department. The Civil Defense office is also part owner of a chain saw, which was purchased together with the Fire Department and the Road Agent.

All this equipment has been purchased with the money allowed in last year's budget.

In closing, I would like to thank the people of our community and especially the members of the Fire Department, for the encouragement and support they have given me this past year. I also urge more people to become interested in this project because someday it might save our people from disaster.

Respectfully submitted,
ROGER A. LETENDRE
Civil Defense Director

FIRE RECORD

Fire records are made by people—those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966.)

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres - - - a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A. M. and 5:00 P.M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.
2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important - Instruct your children that matches are not play things.

TRULY - ONLY YOU CAN PREVENT
FOREST FIRES

Allenstown - 5 fires - 14.5 acres burned.
18 permits issued.

SUPERINTENDENT'S REPORT

School enrollments in Allentown, Hooksett, and Pembroke have increased over 48 per cent in the past 5 years. These towns have not only highly desirable business areas, (when zoning permits) but have equally desirable residential sections. All the reports I have seen indicate that increased growth may be expected to continue and, probably, at an accelerated rate. This means many problems for our schools which must be met, one way or another, at increased costs. It is a matter of opinion whether good to excellent schools attract people or whether people force the making of better schools. A modern educational system, modern at all levels, is the greatest asset any community can have. Changes in our educational system will take place either on a hit-or-miss basis as necessity demands or on a more carefully planned program, which can look into the future as well as care for the present.

The state average high school cost has been estimated at \$589. Pembroke Academy has set its rate at \$585, an increase of \$65. Continued increases are to be expected as costs in general spiral and teachers' salaries continue upward. Then too, the Academy must charge enough to write off its debt over a reasonable period of years. The yearly increase in rates could be substantial as it is this year.

The past year proved to be the most difficult one to hire teachers. The worst is yet to come! Recruiters from the west coast and even Hawaii are booking interviews in this area now. Competition for teachers is literally nation-wide!

We appreciate your fine support of the Allentown School.

Respectfully submitted,
C. MAURICE GRAY

ANNUAL FIRE DEPARTMENT REPORT

To the Residents of Allentown:

I would like to begin this report to you with a tribute to Armand Brisbois who retired this year from his post of Deputy Chief of the Department. We have been fortunate to have his services over the years and owe much to him.

After considerable study, we revised our "red phone" system this year. It is now connected to the answering service with the result that we have 24 hour service - 365 days of the year. The fire station and the home of the Chief are also connected to provide better coverage.

A new alarm system has been installed and is in operation. Arrangements can be made to tie in any business or industrial establishment to this system. I strongly urge all businessmen to seriously consider tying into the system as prompt notification of a fire results in our getting there faster -- and it is the first few minutes which are the most valuable in firefighting.

We now have equipment available for the administration of oxygen. This is available to you in emergencies and we ask that you call us when oxygen is needed.

The Department has appointed a training officer Lieut. Paul Dandurand, who will be responsible for keeping up with the latest methods and techniques of firefighting and for training your firemen in these methods. We feel this will result in still further improvement in our service to the Town.

Last year we purchased 500 feet of 2½" hose and 1,000 feet of 1½" hose, the latter to replace hose on hand which was considered to be unfit for sustained use. We also purchased and installed safety belts on the trucks to reduce the danger to the men riding on the back of the apparatus.

The fire station was repainted during the year. I would like to take this opportunity to point out that the town will soon have to make a major decision concerning the station. Its present age and condition will not permit us to continue a "piece-meal" type of maintenance much longer; we will either have to do a major structural overhaul on it or replace it with a new station. Your Department earnestly recommends that a new station be built, one which will be adequate to serve the town now and in the future.

We fought 16 more fires this year than in the preceding year. During this time, two trucks broke down and major repairs were needed to keep them in operating condition. Your cooperation and generosity kept the repair bills at a minimum, however, it was a budget item we had not counted on. Your fire department recommends a review of the equipment and a plan for adding new equipment necessary for the protection of the town as well as for the replacement of obsolete equipment.

I would like to take this opportunity to thank the people of Allentown for their wonderful cooperation during the past year.

Respectfully submitted,
Chief Robert D. Chevette
